

12" – Contractor Shim Bundle

Item Number: CSH12/42/12/48B

Bundle = 42 Shims

Case = 12 Bundles

Pallet = 48 Cases (576 Bundles)

Why is split resistant, easy to cut, and excellent snap important? Contractors use shims for many applications and don't want to waste time trimming/cutting shims. Also, if a shim splits when securing with a screw/nail, the user has to re-shim the install.
