

# 8" – 56 Count Contractor Box

Item Number: CSH8/56/10/39B

Box = 56 Shims

Case= 10 Boxes

Pallet = 39 Cases (390 Boxes)

**Why is split resistant, easy to cut, and excellent snap important?** Contractors use shims for many applications and don't want to waste time trimming/cutting shims. Also, if a shim splits when securing with a screw/nail, the user has to re-shim the install.
